Célestin Matte

DevOps System Administrator

contact@cmatte.me
https://cmatte.me
31 years old

Education

2017	**PhD** in Computer Science, University of Lyon, INSA Lyon, France.
2014	**Master** (*Diplôme d'ingénieur*) at **Ensimag**, Grenoble INP. One semester in Aalto University (Finland). Major: Engineering of Information Systems.
2011	**DUT** in computer sciences in Metz, first in the class. One semester in Germany.

Professional experience

2022 - now	System Administrator for IRIS (Canon group): manage ~50 Linux servers
2021 - now	Freelance DevOps System Administrator for Software in the Public Interest: migrate running systems to up-to-date and maintained cloud-based servers or services. Write Ansible script[1] to install open source mailing list software pglister, work on patches with upstream.
2020 - 2021	Freelance engineer at ITG Consulting
2019 - 2020	Postdoctoral researcher at Inria Sophia Antipolis: web tracking. 2 publications in peer-reviewed conferences (one top conference) [2] [3] [4] [5] + 1 journal publication [1]
2018	Off year for personal projects[6]
2014 - 2017	PhD student at CITI Lab - Inria Privatics: privacy-preserving Wi-Fi tracking. Thesis: Wi-Fi Tracking: Fingerprinting Attacks and Countermeasures (Manuscript[7], slides[8]) 4 publications in peer-reviewed conferences[2] [3] [4] [5] + 4 publications in general public technical journals[9] [10] [11] [12] Teaching (3 years): Algorithmics and programming. EN + FR, 1st-year Bachelor level. Installation of a Wi-Fi tracking demonstration prototype at the *Cité des Sciences et de l'Industrie* (Paris) for the Terra Data exhibition[13].
2014	6-month internship at CITI Lab (Inria, Lyon): privacy problems in Wi-Fi technology.
2013	2-month internship at TDF: Solution for monitoring QoS of a network architecture.
2012	2-month internship at Digigram: Installation and configuration of a bugtracking system (Redmine), defining of needs and import of existing datas.
2011	6 months (internship + half-time job): Hochschule Mittweida, Germany. Creation of a reporting system and a data warehouse (Qlikvew, Drupal).

Technical skills

- OS: Debian, Arch Linux, Ubuntu, CentOS
- DevOps tools: Bash, git, Gitlab, Ansible, Docker
- Software: Apache, nginx, MariaDB, postgreSQL, postfix, dovecot, SSH, fail2ban, php-fpm, Samba
- Cloud: Google Cloud Platform, OVH, Gandi
- Programming: Python/Flask, Django, PHP, JavaScript

Software

- Wombat[14] A Wi-Fi tracking system for testing and demonstrational purpose *Python* *Ansible* *Arch Linux*
- Cookie-Glasses[15] A browser extension showing consent registered by cookie banners of IAB Europe's Transparency & Consent Framework *JavaScript* *WebExtensions*
- Vendorlist explorer[16] Web application that extracts information from the vendorlist of IAB Europe Transparency & Consent Framework and makes this information human-readable. *Python* *Flask* *SQLAlchemy*
- Cookinspect[17] Selenium-based crawler used to find violations in cookie banners of IAB Europe's Transparency & Consent Framework *Python* *Selenium* *WebExtensions* *SQLAlchemy*

Contributions to open source projects

- wyrd[18] *Sysadmin* fix compile issue and maintain AUR package (Arch Linux)
- Ansible community.general[19] (1 commit) *Sysadmin* *Python* Add new feature for pacman
- Consent-O-Matic[20] *JavaScript* (9 commits) improve behaviour, handle new cases
- ranger[21] *Python* (5 commits) bugfix, new functionality
- poezio[22] *Python* (8 commits) new functionalities
- git (Git-Mediawiki)[23] *Perl* (32 commits) code cleaning, new functionality

Bug reports leading to fixes: randrctl, gmic, disconnect-tracking-protection, OCaml Curses

Misc.

Languages: French (native), English (excellent), German (average).
Driving license.
"Study-Arts[24]" dance diploma from INSA Lyon.
Selected personal projects:

- System administrator for an association in 2012-14: in charge of servers hosting student websites (Summary[25])

sysadmin *Debian*

- Developer and administrator for the online game Sistearth[26] *PHP* *MySQL* *Javascript* *sysadmin*
- Maintaining 4 personal servers on Arch Linux and Debian (apache, Flask, postfix, dovecot, mariadb, fail2ban, openvpn, php-fpm)
- Wrote several dancing shows, some using digital art (Kinect sensors) (Website[6]) *C* *C++* *libfreenect* *OpenCL* *SDL*
- panu[27] A XMPP (Jabber) bot *Python* *XMPP* *Slixmpp* *SQLAlchemy*
